Part 1

Your English friend is coming to visit you for a month. She/he likes running and asks you whether she/he could go running in your town. Write an e-mail (around 125 words) and inform her/him about the following:

- *where you can go running in your town*
- *would you go running with her/him (why/why not?)*
- *what sports you like (why?)*
- *what other sports your town offers (e.g. swimming, tennis, etc.)*

Dear Joyce,

So you're a runner? I like to run too and we can run when you visit! I enjoy sports and I want to live a healthy life. We'll run together in the meadows.

I think you will like my town because you like sports. We can visit the new sports center and the new football field. We can watch a football game if you want to, or watch a basketball game. I play volleyball, so you can watch me too! I also like swimming in Lake Balaton, so bring your swimsuit. There are also tennis courts, swimming pools, and gyms in my town.

I'm really looking forward to running with you around town! We will enjoy spending time together this summer. Write me soon about when you will arrive.

Love,
Zsofi

Part 2

Last week you saw a new film. Write an e-mail (around 125 words) about the film to your English friend and speak about the following:

- *write about the film (story, location, actors ...)*
- *why you liked/did not like the film*
- *where you like watching films: in the cinema, or at home on TV/DVD (why?)*
- *if you prefer watching films alone or together with others (why?)*

Dear John,

Last week I saw a film made by my favorite director, George Lucas. My favorite actors star in it – Harrison Ford and Mark Hamill. The sci-fi film takes place in the future. You must see it because it's exciting and scary.

I was afraid because it was loud. You must see it in the cinema because you will not enjoy it as much on TV. The cinema is the best place to watch it because of the sound system and 3D. Invite somebody because you will be afraid alone. I prefer watching films like these with others because they're so frightening to watch alone.

In the film, you will see a new planet, knights, and masters ruling over others. You should see it because you'll like the music too.

Love,
Zsofi
